PROFESSIONAL PROFILE

Results-driven Operations and Supply Chain professional with 4+ years of experience in large-scale automotive and agricultural equipment manufacturing, aftermarket service operations and supply chain planning. Proven track record in NPS governance, dealer network management, spare parts inventory optimisation and data-driven process improvement delivering measurable outcomes including a nationwide NPS improvement from 53 to 61 and 98%+ SLA compliance across an 800+ partner network. Recently completed MSc in Supply Chain and Operations Management (University of Nottingham) with hands-on consulting experience in 3PL network optimisation and international market entry strategy. Proficient in Power BI, SAP (MM/QM) and Six Sigma methodologies. Adept at translating complex operational data into actionable insights, driving cross-functional alignment and applying structured problem-solving to deliver sustainable operational excellence.

CORE COMPETENCIES

Operations & Improvement: Process Optimisation, Lean Manufacturing, Six Sigma, TQM, Root Cause Analysis, FMEA, Change Management

Supply Chain & Inventory: Spare Parts Planning, MSR Modelling, Demand Forecasting, 3PL Network Design, S&OP, Aftermarket Operations, Warehouse Management

Data & Analytics: Power BI, SAP (MM/QM), Advanced Excel, KPI Dashboard Development, Failure Pattern Analysis, Business Intelligence

Quality & Compliance: ISO 9001, APQP, CAPA, NDT, GD&T, Supplier Quality Management, Internal Audits, Technical Writing

CX & Dealer Network: NPS Governance, SLA Management, Complaint Resolution, Dealer Engagement, Field Audits, Warranty Management

Strategy & Consulting: Market Analysis, Competitor Benchmarking, Stakeholder Engagement, Business Case Development, Executive Reporting

EDUCATION

MSc, Supply Chain and Operations Management

Sep 2024 - Sep 2025

Nottingham University Business School, UK

Modules: Business Intelligence & Analytics, Managing Contemporary Operations, Supply Chain Planning & Management, Quality Management & Quality Techniques, Operations Strategy, Project Management

Consulting & Academic Projects:

- Supply Chain Location Planning (FMCG): Optimised a 3PL warehouse network; hub relocation and outbound route redesign delivered a 10% CO₂ reduction and improved service efficiency
- UAE Market Entry Strategy (SQUAKE, Germany): As part of a 5-person consulting team, developed a market entry and sustainable logistics adoption strategy aligned with the UAE Net-Zero 2050 mandate and ICAO CORSIA regulatory requirements; findings presented to SQUAKE's executive leadership
- Dissertation: 'Advanced Analytics in Manufacturing Supply Chains (2015 - 2025)' - Systematic review (PRISMA methodology) of analytics across SCOR processes; proposed an Industry 5.0 roadmap for scalability, SME integration and sustainability

B.E. Mechanical Engineering

Jul 2016 - Nov 2020

Vel Tech MultiTech Engineering College, Chennai, India

Core Modules: Total Quality Management, Theory of Machines, Engineering Mechanics, Finite Element Analysis, Machine Design, Automobile Engineering, Principles of Management, Engineering Economics

PROFESSIONAL EXPERIENCE

TAFE - Tractors and Farm Equipment Limited, Chennai - India

Executive - Customer Support & Service Strategy

Aug 2023 - Aug 2024

Core member of the National Service Strategy team for India's largest tractor manufacturer (Massey Ferguson brand), driving alignment between field operations, supply chain responsiveness and customer experience.

- Improved nationwide Net Promoter Score from 53 to 61 through systemic service gap analysis and targeted corrective actions, driving measurable customer retention impact across the dealer network
- Achieved 98%+ complaint resolution within a 1-hour SLA across 800+ dealer and distributor locations consistently, managing high-priority escalations and corporate service-related issues
- Piloted a Minimum Stock Requirement (MSR) model and CRM automation framework, optimising spare parts availability and supply chain responsiveness across the KPD and dealer network
- Developed and deployed automated Power BI dashboards providing senior leadership with real-time visibility into dealer performance, parts fulfilment rates, field team efficiency and operational KPIs
- Conducted extensive nationwide competitor benchmarking and field audits, translating customer and dealer intelligence into optimised service processes and strategic policy decisions
- Launched extended warranty kickstart programme, improving dealer adoption rates and engagement through structured execution and a scalable CX framework that drives long-term service revenue growth

Field Officer - Technical Support & Field Quality

Jul 2022 - Jul 2023

Strategic interface between field technical intelligence and central operations, transforming reactive support into a proactive, data-driven reliability function.

- Designed and deployed an automated Failure Grouping Code analytical system integrated with SAP and CRM, enabled early identification of critical failure patterns, reduced repeat failures and delivered significant warranty cost savings
- Acted as key interface between field teams, service operations and central quality, coordinating timely resolution of reliability and warranty concerns for new product launches across the dealer network
- Authored and published Technical Service Bulletins standardising corrective actions, technical information and product improvements across the national dealer network
- Validated and processed warranty claims in coordination with central quality team, reducing warranty cost exposure and eliminating unnecessary spare parts waste

Graduate Quality Engineer - Strategic Business Unit

Jun 2020 - Jun 2022

Began career in the quality assurance function of a large-scale manufacturing environment, gaining hands-on exposure to how operational excellence is driven by discipline, precision and cross-functional leadership.

- Led a cross-functional team of 7 quality inspectors overseeing end-to-end quality across warehouse and dispatch operations, ensuring alignment between operations, quality and business stakeholders
- Identified recurring quality bottlenecks and implemented process and control improvements that enhanced spare parts quality, inspection effectiveness and warehouse operational efficiency
- Performed dimensional, functional and metallurgical inspections for new product development (NPD) components, ensuring supplier parts met technical specifications and export market requirements
- Recognised as 'Best Quality Engineer' for achieving zero non-conformities over an 18-month period, supporting European Heritage and Export markets with critical compliance and traceability standards
- Monitored supplier quality reports, spare parts inventory and process audits, driving supplier accountability and continuous quality improvement across the supply base
